SSC	CGPA:9.7

Technical Skills

- Mobile Application Development basics
- HTML+CSS
- UI UX Designing
- Java basics
- C# basics

Projects

Responsive Photo Gallery Website

I created a fully responsive photo gallery website using HTML, CSS, and JavaScript, featuring a sleek, user-friendly interface. The design includes adaptable layouts for all devices, interactive elements like image lightboxes, and a clean gallery showcasing my photography. This project enhanced my skills in front-end development and UI/UX design.

UI/UX Design Project: AnimeThemed Movie Booking

I developed an engaging movie ticket booking experience using Figma, tailored specifically for anime enthusiasts. The design featured an interactive seat selection process with intuitive hover effects, smooth transitions for a fluid booking journey, and customized themes inspired by popular anime and movies like "Deadpool." This project honed my skills in user interaction and design aesthetics, resulting in a highly personalized and user-friendly interface.

Check out the full project on Figma: https://lnkd.in/gGrvcREk

Internship

ALI DIXON

Customer Support for testing CCTV cameras, NVR, and DVR of the PPLUS brand.
